

CamDirector® Conference Smart Tracker

PROFESSIONAL SPEAKER TRACKING MADE EASY

 Connects Bosch CCS 1000 D with AVONIC PTZ cameras for a cost-effective conference solution.

Integrated Speaker Tracking

CamDirector Conference Smart Tracker seamlessly connects Bosch CCS 1000 D and AVONIC PTZ cameras, providing an easy and cost-effective way to add professional speaker tracking to any CCS 1000 D installation.

Easy Setup. Fast Deployment

Streamlined configuration and ultra low-latency video over standard Ethernet infrastructure eliminate the need for dedicated coaxial cabling, simplifying installation and enabling faster deployment and commissioning.

Switch When Ready

CamDirector Conference Smart Tracker monitors camera movement and switches only when the selected camera is in position, ensuring smooth, professional transitions.

"Cost-effective solution with minimal configuration and clean camera switching."

Simple and powerful workflow

From active speaker to the right camera

CCS 1000 D

Determines active speaker and recalls preset.

AVONIC PTZ Cameras

Moves to the assigned speaker view.

Conference Smart Tracker

Monitors camera movement and switches when ready.

Video Output

Shows the active speaker with a clean transition.

Ideal for

Boardrooms • Council Chambers • Committee Rooms

Bosch conferencing. AVONIC video. One intelligent workflow.

Professional Results. Cost-Effective Investment. Bosch CCS 1000 D + AVONIC CM32

The ideal combination for organizations looking to add professional speaker tracking without the cost and complexity of traditional AV control solutions. CamDirector Conference Smart Tracker connects Bosch CCS 1000 D and AVONIC CM32 cameras for easy deployment and reliable operation.
